# Ashbrook General Hospital

Virtual Workforce Dataset — summary (fictional data for a phishing-simulation project)

## At a glance

- **1 hospital** — Ashbrook General, 320 beds
- **5 pillars** as the high-level grouping
- **25 virtual staff** — 5 per pillar
- **16 operational fields** per person (department, location, inpatient/outpatient, patient-facing, two experience measures, reporting, collaborations)
- Experience is split into **years in role** and **years with the organization** (total), so role changes are captured

## The 5 pillars

| Pillar | Focus | 5 professions included |
|---|---|---|
| **Patient Care** | Professionals directly responsible for caring for patients. | Emergency Physician, Surgeon, Registered Nurse, Nurse Practitioner, Certified Nursing Assistant |
| **Diagnostics & Treatment** | Professionals responsible for diagnosing diseases and providing medical treatment. | Pharmacist, Medical Laboratory Scientist, Phlebotomist, Radiologist, Respiratory Therapist |
| **Nursing & Clinical Support** | Professionals who support the patient's clinical recovery and ongoing care. | Physical Therapist, Occupational Therapist, Dietitian, Social Worker, Case Manager |
| **Administration & Management** | Professionals responsible for managing the hospital and its administrative functions. | Hospital Administrator, Nursing Director, Human Resources Manager, Medical Billing Specialist, Patient Registration Representative |
| **Operations & Infrastructure** | Professionals responsible for keeping the hospital physically and operationally functioning. | Security Officer, Environmental Services Worker, Biomedical Equipment Technician, Patient Transporter, IT Support Specialist |

## Definitions

**years_in_role** — Years the person has held their current job title.

**years_with_organization** — Total years employed at this hospital, across any role (always >= years_in_role). Example: a nurse of 1 year who spent 5 earlier years as a pharmacy tech has years_in_role 1 and years_with_organization 6.

**patient_facing** — Y if the role has direct contact with patients, N if it does not.

**collaborating_departments** — The departments and key people this person routinely works with (named by name and job_id).

## The 25 virtual staff

| ID | Name | Job title | Department | Location | In/Out | Patient facing | Yrs in role | Yrs with org |
|---|---|---|---|---|---|---|---|---|
